

# *Practical Lab Exercises*

## Lab- Fundamentals of HTML and CSS

Web Programming (F28WP)

---

### Introduction

In this lab, you'll further develop your understanding of core HTML and CSS.

### 1.1 CSS Zen Garden

This lab is to help you familiarize you with the potential of CSS-based design. Visit the website:

<http://www.csszengarden.com>

You'll then be able to download the example html and css file for the website. The aim of the task is to redesign the website appearance by simply modifying the CSS script. View designs on the website for inspiration.

Read through the instructions on the website.
